

# Eyebrow Transplantation Training (FUE / AF Method)

## 5-Day Hands-On Surgical Program — Daily Schedule

### (1 Case per Day)

Each training day includes **one complete eyebrow transplantation case**, reflecting real clinical practice. An eyebrow transplant is a full-day microsurgical procedure. All training days run from **09:00 to 18:00** and follow a progressive responsibility model from observation to fully supervised independent execution.

#### Day 1 — Observation, Design & Microsurgical Foundations

09:00 – 09:30 | Welcome & Introduction (Meet & Greet) + OR Orientation

09:30 – 10:30 | Eyebrow Anatomy, Aesthetic Design & Hair Direction Principles

10:30 – 13:00 | Live Surgery — Complete Eyebrow Transplant (Trainer Operates, Participant Observes & Assists)

13:00 – 13:45 | Lunch Break

13:45 – 16:30 | Live Surgery Continued — Graft Placement, Density & Angle Control

16:30 – 16:45 | Break

16:45 – 17:30 | Design Practice, Angle Control Exercises & Case Review

17:30 – 18:00 | Debrief & Q&A;

## Day 2 — Donor Harvesting & Graft Preparation

09:00 – 09:30 | Welcome & Introduction + Case Briefing

09:30 – 10:30 | Donor Area Selection & Extraction Strategy

10:30 – 13:00 | Live Surgery — FUE Harvesting & Graft Preparation (Participant Assists)

13:00 – 13:45 | Lunch Break

13:45 – 16:30 | Continued Graft Preparation, Sorting & Preservation

16:30 – 16:45 | Break

16:45 – 17:30 | Microscope-Based Graft Handling & Quality Control

17:30 – 18:00 | Review & Feedback

## Day 3 — Slit Creation & Partial Implantation

09:00 – 09:30 | Welcome & Introduction + Design Review

09:30 – 10:30 | Slit Angle, Direction & Depth Training

10:30 – 13:00 | Live Surgery — Participant Creates Slits & Partial Implantation (Supervised)

13:00 – 13:45 | Lunch Break

13:45 – 16:30 | Live Surgery Continued — Partial Implantation & Symmetry Checks

16:30 – 16:45 | Break

16:45 – 17:30 | Error Analysis & Technique Correction

17:30 – 18:00 | Debrief & Next-Day Targets

## Day 4 — One-Side Independent Eyebrow Transplantation

09:00 – 09:30 | Welcome & Introduction + Independent Planning

09:30 – 10:30 | Slit Creation — Participant (Trainer Supervises)

10:30 – 13:00 | Live Surgery — Participant Performs Full Transplant on One Eyebrow

13:00 – 13:45 | Lunch Break

13:45 – 16:30 | Continued Implantation, Density Refinement & Angle Optimization

16:30 – 16:45 | Break

16:45 – 17:30 | Outcome Evaluation & Technique Optimization

17:30 – 18:00 | Feedback & Preparation for Day 5

## Day 5 — Fully Supervised Independent Eyebrow Transplantation

09:00 – 09:30 | Welcome & Introduction + Case Planning

09:30 – 10:30 | Slit Creation & Surgical Strategy Confirmation

10:30 – 13:00 | Live Surgery — Participant Performs Complete Eyebrow Transplant

13:00 – 13:45 | Lunch Break

13:45 – 16:30 | Completion of Implantation & Final Quality Control

16:30 – 16:45 | Break

16:45 – 17:30 | Postoperative Care, Growth Patterns & Complication Prevention

17:30 – 18:00 | Final Assessment, Certification & Practice Guidelines

Completion of this 5-day program includes **five fully supervised eyebrow transplantation cases** and qualifies participants to start performing eyebrow transplantation within a clearly defined beginner scope. Mastery requires continued supervised clinical experience.
